## MISSOURI STATE NEWS.

The Missouri Crop Report. The crop builtin, issued by the Mistouri section, climate and crop service, weather bureau, for the week ended April 20, says:

The past week has been much more favorable for farm work than any previous week this season, and in most sections of the state considerable progress has been made in sowing outs and entage of sunshine. The temperature, however, was much below the normal and in consequence veretation has made but little edvancement Heavy frosts occurred on several dates, and in some of the southern counties early strawberries are reported killed. Tree fruits are also reported damaged in some localities, but it is believed that as a result they have so far ex-caped serious injury. Out-sowing is nearly completed in many of the central and southern countles, and is in progress in the northern sections. Corn-planting has been commenced in most of the central and southern counties, and in a few of the southwestern coun-ties is well attanced. Over a large portion of the state, however, the ground is still wet and cold. Flac sowing is in progress in the south-west, and estion planting has commenced in Dunblin counts. Except in a few countles, gardening and points planting have progressed dewly. Winter wheat, clover and grasses and

## EXHAUSTED GREEKS,

After Days and Nights of Continuous Fighting,

Retreat Before Superior Numbers, Aban doning Many Guns and Great Quantitles of Stores Will Occupy Second and Stronger Positions.

#### An Aspect of Dignified Endurance and Un abated Enthusiasm at Athens.

ATHENS, April 25, Noon.-It is use less to deny that a very gloomy outlook of the war is taken here by the better informed. There are, however, no signs of panie. The city exhibits an attitute of dignified endurance, while many persons still show an unabated enthusiasm for fight. This is particularly noticeable among the wounded now in Athens. Their desire seems to be to be healed in order that they may rejoin their colors. Naturally, this spirit is much fostered by the confirmation of the reports that the Turks have burned the Greek wounded in a church at Kurtzivoli. The Turks lighted fires under the bodies of wounded beasts. Many of the Greeks implored their comrades to kill them, others committed suicide.

It is reluctantly believed by some in Athenian circles that the retreat was somewhat disorderly, and that some of the guns were abandoned with but feeble defense. It seems probable, however, that in the main the retreat

was in good order. This morning the word goes forth here that the government will persevere in the struggle with greater determination. The report, however, has not served to allay the growing irritation at the belief that, even If Greece could not hold her own, the non-offensive policy manifested in the orders of the crown prince not to attack, was idiotic and un-Grecian. The retreat to Pharsala is considered a poor response to the fiery speeches of the Crown Prince Constantine to his

Naturally, all sorts of reasons are advanced to explain why the Greeks retreated, the more candid admitting that the Turk was too strong. It was destate and 29 per cent on personal prop-ylacs returned, and the board of effectors the dulb held a meeting with the centry and and received the report made by 4.0. ver of Editem Pasha. vor of Edhem Pasha.

### RECEDING WATERS

Mark the Flood Situation in the Lower Mississippi The Situation Greatly Improved The River Unchanged at Natchez, but the Prospect Gloomy Planting Must be so Late that There Will be

Practically No Crops. MEMPHIS, Tenn., April 23.-No new crevasses have appeared in the levees to-day, but the current of the river is day, says: still beating against the southern embankments with a fury that causes the gravest apprehension. The break at Delta has inundated 75,000 acres of the finest plantations in northern Louisiena, and the water continues to pour through the opening and is rapidly

spreading over a greater area. Reports from Greenville are not encouraging. While the water is slowly receding in the overflowed district of the Yazoo delta, yet it is almost certain that the planting of this year's crop will be 30 days late. The negro laborers are in a fearful state of destilution throughout the delta, although the government relief work is being

carried on energetically.

The situation north of Memphis and in Arkansas, however, is greatly improved. Capt. Davis, the government purchasing officer here, will send out two boats loaded with provisions tonorrow, one going north and the other to the St. Francis river country. Capt. Davis states that this will be the last government shipment to these districts

unless some new emergency arises. Many people are returning to their farms in Arkansas, and the work of planting will begin shortly. According to the official bulletin of the United States weather bureau, the Mississippi river at Memphis fell three-tenths of a foot in the past 30 hours, and will con-

tinue to fall slowly at this point. From Cairo, Ill., a most encouraging report comes. It is to the effect that the river there fell seven-tenths of a foot since the last bulletin was issued. and will continue to fall at that rate for some days to come.

At Vicksburg and New Orleans there are no changes, the river remaining stationary. At all other points from which bulletins are issued a decline is reported varying from one-tenth to éight-tenths of a foot. The greatest fall is at Shreveport, La., where the gauge shows a decline of eight-tenths of a foot in 24 hours. The Missouri three-tenths of a foot.

## Gloomy.

NATCHEZ, Miss., April 23.—The river is unchanged here, but many people are becoming gloomy again over the threatened outlook for rain and wind to-night. The levees are being soaked and are now seeping. A hard rain would play havoc with them. A hard rain or windstorm at Vidalia would this afternoon sent water splashing over the levee in front of that city. Many refugees continue to arrive at Natchez. The backwater from the Bigges and Reed's crevasses continues to fill the lowlands and swamps with water. The headwater from the break has not yet arrived. The Black and Tensas rivers are rapidly rising from this break and are covering the country of that section.

The Outlook More Gloomy Comparisons of Gauge Readings.

## DESTRUCTIVE STORM,

Accompanied by Heavy Winds and Cloud-Bursts, Spreads Devastation Broadcast Over One Hundred Square Miles of Territory A Cyclone Adds Its Powers and Floods Swell the Grand Total of Damage. Dallas, Tex., April 26.-A special to the News from Eufania, I. T., yester-

A series of cloud-bursts and heavy wind and rain storms occurred in and around Eufuala all of last night and extended over about one hundred square miles of territory. The rain fell in torrents and was the heaviest for fifty years. Farm houses, fences and crops were washed away to an extent

amounting to a calamity. The North Canadian railway bridge is so badly damaged that no trains can cross it and it cannot be repaired for 24 hours. The south-bound passenger train had searcely passed it at 9:45 last night when the south end gave way. Many trains are tied up at this point, and there is a series of washouts for 20 miles that are impassable for the present. The damage to crops is beyond estimation, nearly every acre of ground for many miles in all directions will have to be replanted, many farms are entirely under water, several covered wagons floated down the South Canadian river this morning, accompanied by small houses and household furni-

ture. All ferryboats were washed away and communication cut off. So far no news of loss of life has been received. Much property was destroyed in Eufaula by the wind and rain. A cyclone passed about five miles south of town, destroying some houses and killing some cattle, but the full loss cannot be ascertained at this hour. The rivers are now falling, but repairs cannot yet be made on the railway bridge. Rain and Gloom Characterizes the Lower

River Situation. MEMPHIS, Tenn., April 25.-This has been a rainy and threatening Sabbath in the lower Delta county and Louisiana levees are being taxed to their utmost. At Natchez the river guage shows a rise during the last 24 hours river at Kansas City and at Omaha fell of one-tenth of a foot. Showers have prevailed in this section all day, and The rivers at Nashville and Chatta- to night a steady down-pour is re-100ga also registered a fall. In fact ported. The levees are soft and mushy and with a continued precipitation it ered by the weather bureau in its is feared that the embankment will

> A telegram from Clayton, La., received to-night states that the Tensas river has risen over one foot since last night and the swift stream is full of heavy drifts. The backwater from the

Broke Over the Levee -No Attempt to Run Trains. OTTUMWA, Ia., April 25 .- The river broke over the levee last night and the powers, as they are already mov- revetments and about the im- flooded the bottoms, carrying several portance of proper drainage for the houses down stream. To-day in some embankments, a point which was places the water is above the first story of the houses. One Burlington Audubon park announces as number of dreds of men are at work atopen. The Wabash and Milwaukee trackes are gone here for a distance of 200 feet, and the other roads are tied up. The Rock Island has miles of track under water. No attempt is being made to run trains. The river was

#### still rising slowly to-night. Providential Weather-A Costly Fight.

New Orleans, April 25.-The river s still 19 feet above low water, and the fine stretch of weather has enabled the levee force to hold the banks despite the terrific strain. The weather has been providential, for a few stormy nights would have meant several crevasses almost to a certainty. The fight is a costly one, as can be work on the Carrollton levee, about one-fiteenth of the city system, cost \$14,000. A number of weak spots have been added to the list, but the levee boards have gone promptly to work in all cases and danger has been bridged

Capt. Derby, of the United States engineers, has already begun arrangements to rebuild the levees where defective and the levee board across the river has turned over three levees to the government's supervision

## Found the Keys of the Bank.

Somersworth, N. H., April 26.-The room in Berwick of J. E. Kelly, the confessed murderer of Cashier Stickney of the Great Falls national bank was searched last night, and in it were found the keys of the Great Falls national bank, which were taken from Stickney's pocket.

## THE WHITE SQUADRON

Anchored in the North River to Take Part in the Naval Parade.

New York, April 26., The white squadron left its anchorage off Tompkinsville, Staten Island, early yesterday morning, and sailed up the North river to its new anchorage off Grant's tomb, where it will remain until Wednesday or Thursday. Large crowds gathered at the Battery, and on the piers of the North river front to see the vessels pass. The New York, the Sagable of the squadron, with Admiral
